

Dated: 26 September 2023

Subject: Publication of TCF v2.2 Ukrainian Translations

Dear TCF Vendors and CMPs,

This communication gives you formal notification of two updates to the TCF resources intended to support Ukrainian language.

1. New official translation of TCF v2.2 standard texts available at <https://vendor-list.consensu.org/v3/purposes-uk.json> (the list of all official translations can be found [here](#))
2. Possibility for Vendors to declare URLs to their privacy policies and legitimate interest(s) at stake in Ukrainian. When provided by Vendors, such URLs will be published in the GVL under the field "urls" with langId: "uk".

Reminder of the implementation timeline for TCF v2.2

CMPs and Vendors are required to implement the new policies and specifications by **20 November 2023**.

TC String created after this date under TCF v2.1 will be considered invalid, and the GVL for TCF v2.1 will be deprecated (only archives will remain available for decoding purposes).

Please visit IAB Europe's website for [more information](#) or the FAQs document [here](#). If you have any additional questions please email framework@iab europe.eu

All the best

IAB Europe
